## MORE SUCCESS FOR

MORE STUDENTS

TPT International School is a digital high school registered with the Florida Department of Education. Our premium curriculum is designed with an approach focused on the formation of the new generations through accredited courses built to standards to meet strict high school graduation requirements.

Students acquire high quality knowledge, obtain a high school diploma from the United States and apply to worldwide universities. It also allows high school athletes to apply to US colleges within the NCAA network.

Our customized courses meet the needs of each student that have the flexibility to study from anywhere in the world and anytime at their individual pace.

We are proud to teach students from across the globe with diverse goals and aspirations. Many students whose goals require a trict commitment to their art, sport, or carrer, choose TPT for its flexibility.

## RIGOURUS YETENGAGING CURRICULUM

TPT has partnered with Apex (Virtual Learning Platform) to offer students a program offers standards-based digital curriculum in math, science, English, social studies, world languages, and Advanced Placement ( $\mathrm{AP}^{\circledR}$ ) and is widely used for original credit, credit recovery, remediation, intervention, acceleration, and exam preparation. Our rigourus courses meet high school requirements.

## TECHNOLOGY COURSES

Technology courses for Grades 9-12

## OPPORTUNITY AND <br> CREATORS

TPT International Technology Courses give students the opportunity to go beyond being users of technology to becoming creators themselves. The creative, technical, prob lem solving, and critical thinking skills they develop are applicable to any career,-tech nology related or not.

## ACCESS TO

## EXPERT SUPPORT

Because many teachers may not have ex perience with the professional tools used in these technology courses, students have access to support f rom experts online to ensure they can successfully complete their projects and coursework.

## STUDENTS AS

## CREATERS

Students complete projects such as devel oping an iOS or Android app, creating a 3D video game, or designing a fashion collec tion. While doing so, they gain experience with the industry-standard tools used by professionals
